

City of Onkaparinga

The City of Onkaparinga region is located on the southern fringes of Adelaide at the gateway to the Fleurieu Peninsula, renowned for its superb scenery, splendid wine and sensational events and is packed full with adventure activities, nature experiences and gastronomic delights. There are 158,300 people from a range of social and cultural backgrounds across an area of 518 square kilometres.

The City of Onkaparinga is developing strategies for building resilience to the challenges associated with climate change in the areas of primary production, water management, biodiversity, sea levels and the coast. The City of Onkaparinga is tackling climate change through both reducing greenhouse gas emissions and adapting to the inevitable changes ahead. Visit the City of Onkaparinga/McLaren Vale.

TECHNICAL TOUR SPONSOR
Agrilink Holdings Pty Ltd

AquaSpy is a product supplied by Agrilink which will be demonstrated on the Technical Tour 3 August. Agrilink supply soil moisture probes, sensors and regulators plus data acquisition, transfer and analysis systems to provide complete water management solutions for improved water use efficiency. Agrilink's products are renowned for their innovation, superior accuracy and reliability, and are the ideal solution for every water management application. Delivering water management solutions for data measurement, storage, transfer and analysis, all Agrilink products can be integrated as one system to provide a convenient and practical data management package.

DINNER SPONSOR
EPA SA

The Environment Protection Authority is South Australia's primary environmental regulator, responsible for the protection of air and water quality, and the control of pollution, waste, noise and radiation.
