Appropriate Attire for Viticulture Technical Tour

Disease control is a serious issue for the Australian wine and grape industry. As part of the viticulture technical tour, participants are required to comply with the disease control protocols specified by the Phylloxera and Grape Industry Board of South Australia.

After each vineyard tour ALL viticulture tour participants will be required to step in to and if necessary brush the soles of footwear with disinfectant (water with 1% chlorine solution) as they enter the bus.

This disinfectant solution may cause bleaching if in contact with clothes. Please wear appropriate footwear and attire for viticulture tour.

Disclaimer: SA Wine & Brandy take no responsibility for any damage to clothes or footwear that may result from disinfection procedures.
